# Synchronization among Multiple Nanomachines for Simultaneous Targeted Drug delivery
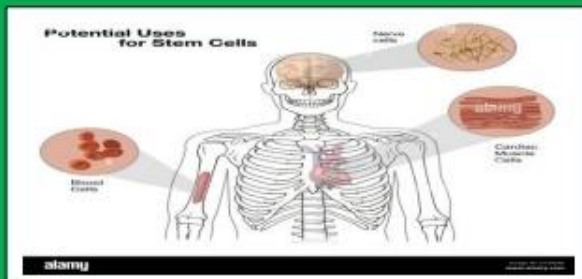

1. Introduction

Molecular Communication(MC)

2. Problem Statement

- **Simultaneous drug delivery .**
  1. How to perform synchronization?
  2. When to release the drug molecules?
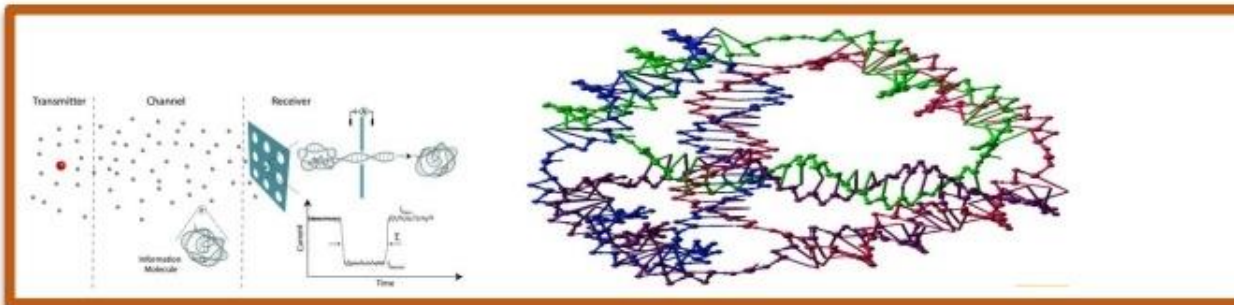

- **Acritical requirement inTDD**

A Potential application of MC

3. Solution

➢ **Synchronization**
➢ **Simultaneous drug delivery**

4. System Model and Proposed Scheme

Md. Sohag Miah
